

LIFX Lightstrip Extension

1 metre
Extension only

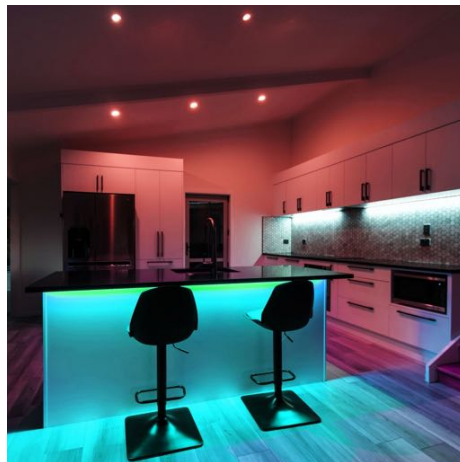

Extend your lightstrip

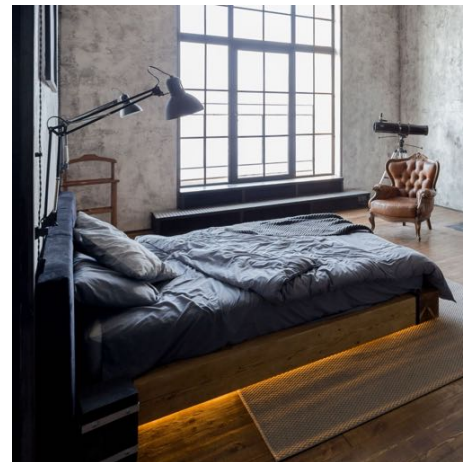

LIFX Lightstrip Extension is for customers looking to extend the length of their LIFX Lightstrip. Either simply plug into the end any existing LIFX lightstrip, or use the LIFX Connector Cables (coming 2021) to go round corners or across gaps in your cabinetry.

Your lightstrip will be longer and brighter

With added options to extend your Lightstrip, you find opportunity in any space.

Some backlit or underlit applications are essential to be just the right length.

We work with *all* the big names

And build integrations that provide endless ways to use LIFX, eg:

IFTTT logitech

MSRP: \$39.99
